 Address

Gori Syedan P/O Garhi Dupatta, Tehsil & District Muzaffarabad , AJK

EDUCATION

SSC-science from BISE AJK 2016

DAE-civil from KPK board 2019

BS-applied geology from university of Azad Jammu & Kashmir 2023

LANGUAGES

Fluent in Urdu & English languages.

HOBBIES

- ❖ Travelling
- ❖ Reading
- ❖ Internet surfing
- ❖ Cricket

CAREER OBJECTIVE

Motivated lifelong learner who embraces challenges with a growth mindset, dedicated to pushing boundaries and inspiring those around to pursue their passions relentlessly.

PROFESSIONAL SUMMARY

Detail-oriented and motivated Geology graduate with a solid foundation in earth sciences, mineralogy, and environmental geology. Proficient in field research, data analysis, and geological mapping, with hands-on experience gained through internships and academic projects. Strong analytical skills complemented by effective communication and teamwork abilities. Eager to contribute to geological research and exploration projects, with a commitment to sustainable practices and continuous learning in the geosciences field. Seeking an entry-level position to apply knowledge and skills in a dynamic and challenging environment.

PROFESSIONAL SKILLS

- **Geological Mapping:** Proficient in creating and interpreting geological maps using field data and GIS software.
- **Data Analysis:** Strong ability to analyze geological data, including mineral composition and stratigraphy.
- **Fieldwork:** Experienced in conducting field surveys, sample collection, and site assessments.
- **Laboratory Techniques:** Familiar with mineral identification, rock classification, and various laboratory testing methods.
- **Geospatial Software:** Proficient in GIS applications (e.g., ArcGIS) and data visualization tools.
- **Research Skills:** Ability to conduct literature reviews, synthesize information, and present findings clearly.
- **Technical Writing:** Capable of producing detailed reports, scientific papers, and presentations.
- **Team Collaboration:** Effective team player with experience working in multidisciplinary groups.
- **Problem Solving:** Strong analytical thinking and problem-solving skills applied to geological challenges.
- **Environmental Awareness:** Knowledge of environmental regulations and sustainable practices in geology.

EXPERIENCE

01 Month working experience as a geologist at Neelum Jehlum Hydro project AJK
